When you go from home to Author, you have a minimum for the search and no maximum. It should contain both a minimum and a maximum	*When*: when you are user or visitor and want to search Authors *Then*: You should have maximum for input *Examples*:from home page. go to the option authors, then try to input one letter, you have a message that there is a minimum. But you can input as many as you want, there is no maximum.	Not working.	https://stage.sacret-life.com/authors	Andjela	04.01.2020.	FireFox Web	
When you enter a product, there are hearts on the front page of the product that indicate the rating. There should be a click-to-heart rating option	*When*: when you are user and you want to rate some product *Then*: on the home page of the product where the hearts stand, they should be a means of rating *Examples*:from home page. go to the option videos, then sub option e-programs, then enter any product you want, try to raiting by clicking the hearts, nothing happens	Confusing the user	https://stage.sacret-life.com/e_programs/g1062604	Andjela	04.01.2020.	FireFox Web	
In filters, when selecting a product, there is an option at the right end of the filter to display the product vertically or horizontally. If I select horizontally the images placed to represent the product will not appear.	*When*: when you are user or visitor and you want to arrange the products vertically or horizontally *Then*: the products should in both cases appear in their proper design *Examples*:from home page. go to the option videos, then sub option e-programs, then in the right corner you have a icons for vertically or horizontally. When you choose horizontal, the product loses image and looks confusing	Not Working, Looking bad	https://stage.sacret-life.com/e_programs	Andjela	04.01.2020.	FireFox Web	
When I switch to mobile by DevTools. The products come out without a picture, with a description over the place where the picture should be	*When*: when you are user or visitor on mobile mood (DevTools) *Then*: the products should appear in their proper design *Examples*:from home page. go to the option Services , then sub option Food & Restaurants. All product does not have a image and a product description is all over a place where a picture should stand	Not working.	https://stage.sacret-life.com/serv	Andjela	04.01.2020.	FireFox Web	
When I switch to mobile by DevTools. And I get into some desired product and I want to add it to the cart, I get two buttons with the same function "add to card".	*When*: when you are user or visitor on mobile mood (DevTools) *Then*: there should be only one button add to card *Examples*:from home page. go to the option Services , then sub option Food & Restaurants. Go to some product, when you want to add to cart you have two buttons with the same role	Not working.	https://stage.sacret-life.com/serv	Andjela	04.01.2020.	FireFox Web	
When I switch to mobile by DevTools. And I enter the desired product, one of the two add to card buttons, the button below has printed text that relates to it outside it	*When*: when you are user or visitor on mobile mood (DevTools) *Then*: there should be a text which describes a button on the button, not outside it *Examples*:from home page. go to the option Services , then sub option Food & Restaurants. Go to some product, when you want to add to cart you have two buttons with the same role, and a second one has a text which describes taht button under it	Not working.	https://stage.sacret-life.com/services/i5326685#product__prices	Andjela	04.01.2020.	FireFox Web	
When we are changing the language, the displayed currency should also change for the products we buy	*When*: when you are user or visitor and you want to change a language *Then*: there should be all the changes related to that language and country *Examples*:from home page.go to the option to change the language, the language will change but the currency will not. I chose Serbia, the euro remained the currency	Confusing the user	https://stage.sacret-life.com/all_videos	Andjela	04.01.2020.	FireFox Web	
At home page, the All button next to search has an option to select the desired part, if you select eg "Videos", it does not enter the Videos section, but rstays on the home page	*When*: when you are user or visitor and you want to select a section you want *Then*: button all next to the search which shows all options, should enter the selected section *Examples*:from home page.go to the button all at the top of the page next to search. select desired section and you will stay on home page,instead of going to the desired section	Not Working	https://stage.sacret-life.com/	Andjela	04.01.2020.
